What are people saying about our Matcha Mask?

" Just tried this and it's fantastic! My pores were shouting thank you when I was done! So refreshing. I love to find high-quality products that don't test on animals. Plus the fact that I can pronounce all the ingredients is a major bonus."

"Okay, I took a chance and ordered this mask and I'm so glad I did. It's easy to mix and apply and scrubs off without too much effort. It left my skin feeling smooth and fresh, definitely works and now part of my nightly routine. It smells great too, you can really smell the matcha, which is a big plus. "
